

I AM THE SISTER IN CHARGE

*Believes firmly that she is supreme.
Treats everyone, including the doctors,
like wayward children. Calls in
on her day off to make sure things
are being done correctly.*

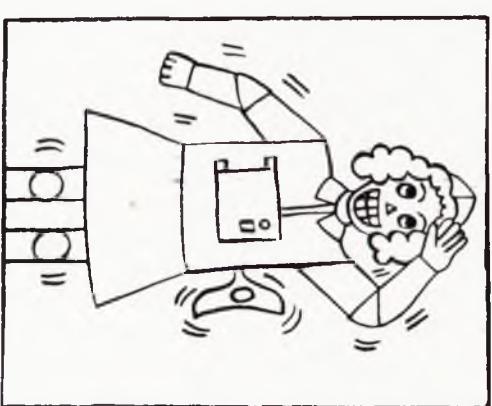

THE EASY-DOES-IT WARD SISTER

*Runs the ward by remote control
from the easy chair in the duty room.
Advocates the "closed door" policy.
Turns in excellent reports. Waves
at the patients when they pass by.*

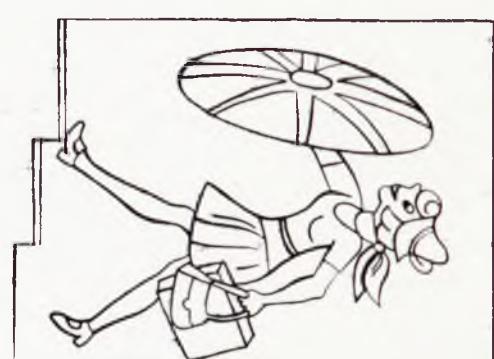

THE SOCIAL BUTTERFLY

*Attends all meetings and lectures.
She has friends in each ward
and every department of the hospital,
and flutters off to visit them frequently.
Alights on her own office occasionally.*

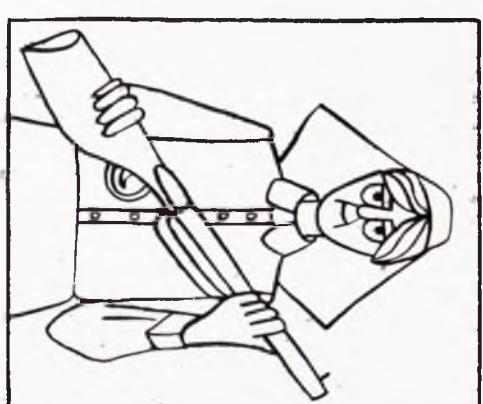

THE ROBOT

*Sometimes known as the doctor's handmaiden.
Rarely has a thought of her own.
Her favourite expression is "Yes doctor".
Falls apart when the doctor takes a day off.
Makes good coffee.*

THE ARMOURPLATED NURSE

*Has carried all her protective
reflexes with her into nursing and
appears hard and unsympathetic.
Her favourite saying: "There is no
time to talk to the patients".*

THE NURSE WHO CHANGETH NOT

*Has worked here since she returned from the Crimea.
Takes pride in the fact that she sticks to her guns
and doesn't change easily. Her favourite expression
is: "We've always done it that way".*
